## ABOUT CONNECTING THE DOTS

**Connecting the Dots** is the first feature documentary of its kind to offer a raw and intimate look at youth mental health from a global perspective. With heart-felt poignant stories of lived experience, the film exclusively showcases young voices breaking barriers surrounding youth mental health. Through highly cinematic and character driven storytelling, **Connecting the Dots** is emotional, reflective and hopeful. Our future leaders are speaking up. It's time to listen.

## ABOUT THE EVENT

Join us for a screening of the film and then a panel discussion following. The panel will be made up of the film's Director, Noemi Weis, local Youth Outreach Worker and a youth with lived experience.
