<u>Statistics and Probability</u> <ul style="list-style-type: none">• <i>Collects and organizes data in a variety of ways</i>• <i>Interprets data and graphs</i>

Solves mathematical problems

- Develops and applies mathematical knowledge through problem solving

Demonstrates foundational math skills

- *Add and subtract numbers to 1000*
- *Recalls addition and related subtraction facts to 18 (9+9)*
- *Recalls multiplication and division facts to 5x5*

Science**Understands science concepts**Rocks and Minerals

- *Demonstrates knowledge of materials that make up earth's crust*
- *Classifies these materials*

Building with a Variety of Materials

- *Safely uses a variety of building tools, techniques and materials*
- *Builds and designs structures and compares their effectiveness for assigned purposes*

Testing Materials and Design

- *Evaluates the suitability of different materials and designs for their use in a building task*

Hearing and Sound

- *Describes how sound works*
- *Demonstrates methods for producing and controlling sound, including pitch and volume*

Animal Life Cycles

- *Describes the appearance and life cycles of some common animals and how they adapt to their environment*
- *Identifies how to care for animals*

Uses scientific investigation skills and reasoning

- *Begins to apply the scientific method when experimenting (formulating a question and hypothesis, identify variables, organize and analyze data, and interpret findings)*

Social Studies**Understands social studies concepts**

- *Recognizes diversity around the world by examining communities in India, Tunisia, Peru and Ukraine*
- *Understands the concept of global community and Canada's role within it*

Uses research skills to find and evaluate information
